

Valley View Extended French Booster Club

The Extended French Booster Club (EFBC) was established when our first graduating class from Normandale Elementary entered Valley View Middle School. Its main goal is to ensure the native language immersion experience continues into middle school, which is especially important given that our children are no longer in a full time immersion program.

As such, the EFBC solicits host families and secures funding for Valley View French Interns each school year. Expenses include recruiting costs, health insurance, intern stipends, visa processing, and various organizational expenses. The intern program is **entirely parent funded and is an essential part of our students' immersion experience.**

EFBC also tries to address the special needs of the Extended French students and staff with the VVMS administrative. In the past the EFBC has sponsored end-of-year recognition events, donated French books and magazines for the media center, served as a source for home French reference materials and transitioning new curriculum to French. The EFBC also serves as forum to discuss matters pertaining to French curriculum, program development, etc.

The EFBC budget is approximately \$6000 per intern. It is essential that all Extended French families contribute to the intern program. Please help us continue this important part of our French program by paying your dues no later than **September 15, 2017.**

Thank you for making our Extended French Intern Program successful!
